Great Remedies.

DR. JOHN BULL'S
Concentrated Extract of

BUCHU

COMBINED WITH

Bromide of Potassium.

Purchase a bottle and carefully read directions.

BUCHU is a stimulant, and of itself may fall to effect a cure, but Buchu, when combined with Bromide of Potassium and other ingredients, produces a sedative effect, and causes a healthy action, thus increasing the powers of digestion, allaying irritation, reducing all inflammatory affections, stopping pain and inflammation, and causing the repair and nutrition of the human body to be greater than the wastes, thus promoting decomposition and decay, and gives nourishment, health and vigor to the system.

My Buchu is good for all diseases arising from excess, such as Weakness, and Pain in the Back and Legs, Trembling in the limbs, the Headache, Neuralgia, Rheumatism, Countenance, Dryness of the Skin, Scrofula, Syphilis, in its many forms, Ulcers, and Tumors.

If your system is affected by any of the above symptoms and diseases, relief is at hand. Get a bottle of my Buchu and Bromide of Potassium at once and you may rely on being cured.

I know just what I say. My record as a Compounder of Medicine is second to no man in the South.

Twenty-five or thirty years ago, as my fellow-citizens know full well, found me behind the prescription counter in the city in which I now dwell. I have cured more people of various diseases than all the physicians in Louisville put together. Undoubtedly, for every single patient I have cured, I have a hundred.

I am no upstart yesterday. My Medicine is a success—a great success. My Buchu is good for me to have a competitor. I monopolize the Wholesale Patent Medicine Trade here. One and another has tried, but coming after me here in Louisville, to compete with me, but, one after another, they have been silenced, and their efforts have been abortive.

My Medicines are good and answer the purpose—that is the secret of my success. My reputation as a compounder of good, reliable articles is fully established.

I believe my Buchu and Bromide of Potassium is the best article now in the market for the cure of all diseases of the urinary or genito-urinary organs, such as Neuritis, Incontinence, Irritability of the Bladder and Urethra, Inflammation of the Pelvis of the Kidney, and all that class of diseases. Buy a dollar bottle and be cured. Use as per directions in all cases.

JOHN BULL, M. D.

Manufacturer and Vendor of the

CELEBRATED

SMITH TONIC SYRUP.

FOR THE CURE OF

AGUE AND FEVER,

OR

CHILLS AND FEVER.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the cure of ague, fever, and chills, and for the cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, peculiarly adapted to the treatment of the ague, and for the cure of the same, more certain to cure, if it is continued in smaller doses for a week or two after the disease has been cured, especially in the difficult and long-standing cases. Usually, this medicine will not require any aid to keep the bowels in good order, should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEG. PILLS will be sufficient.

BULL'S VEG. PILLS will be sufficient.

BULL'S WORM DESTROYER.

Extract of a Letter from Georgia.

VILLAGE, WALKER COUNTY, Ga.,

June 29, 1866.

Dr. John Bull—Dear Sir: I have recently given your Worm Destroyer several trials, and find it wonderfully effective. I have not found it in a single instance to fail, and for which effect, I am doing a pretty large order of your medicine, and have daily use for some article of the kind.

I am, sir, respectfully,

JULIUS P. CLEMENT, M. D.

P. S.—So unqualified and numerous are the testimonials in favor of my Worm Destroyer, that newspaper space is entirely too small to tell the merits.

It is an infallible remedy for Worms. Try it and be convinced. See my advertisement for a full description.

JOHN BULL.

BULL'S SARSAPARILLA.

St. Louis, April 20.

Dr. John Bull—Dear Sir: Knowing the efficiency of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case. I was wounded about two years ago—was taken prisoner and confined for sixteen months. Being moved, I often, my wounds have not healed yet. I have not sat up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than in any thing else. I wish that that is genuine. Please express me half a dozen bottles, and oblige.

JOHN BULL.

P. S.—Mr. Johnson was the son of a skillful surgeon. His mother recommended to me, and for many years used your Sarsaparilla with perfect success. In Scrofula and Fever-sore Mrs. Johnson states that the cure effected were almost miraculous. Read my Journal for extended information and advice in your case. My Journal contains certificates of eminent persons, ministers and medical men, who are known here in this community for integrity and veracity. I have recently received a most remarkable certificate from an eminent gentleman of Louisville.

For the Hickman Courier. The Boarding House Ordinance. The recent order of the city council to enforce the "Boarding House Ordinance" is creating considerable excitement. If the ordinance applies to all who "take boarders"—and it must mean that if it means any thing—why has the council, in its extraordinary haste, notified only a part of those who have boarders that they must pay a tax of ten dollars. There are a half dozen or more—some of the councilmen themselves who are "keeping boarders" that have not been ordered to pay the tax. This invidious legislation has been borne about long enough. It was thought that the city council had made itself informer, judge and jury as to violations of ordinances? We did think that the violation of ordinances were adjudicated before the city court, and those who feel themselves injured or aggrieved by such violations were the parties to apply for redress, and not the city council. We should like to know when and how long has it been since the council has resolved itself into a detective police-force, and taken upon itself the duties of informer and general spy. If we are to have laws, let them bear equally on all—in the "spy" business, treat all alike, and there will be no complaint.

FAIR PLAY. JAMES B. BECK and J. Proctor Knott, are thought to be our most prominent candidates for U. S. Senator. If Knott will agree not to sign his name J. Proctor Knott but plain Proctor J. The Great Hurricane. A full report of the terrible hurricane which desolated the island of St. Thomas, has reached us, and from it we gain many interesting and appalling details. There was not, we are told, an uninjured house left standing in the city, while many sturdy buildings were entirely demolished and many hundred persons killed.

Several ships lying in the harbor were blown ashore, beaten in to pieces by the angry waves, and the masts and broken spars filled the air with their splintered fragments. It must indeed have been a terrible visitation. A city of great commercial importance was left a desolate and an entire island made black and desolate.

SPECIAL NOTICES. Exhausted Health is a blessing vouchsafed to few. Even those who have been favored by nature with strong constitutions and vigorous frames are apt to neglect the precautions necessary to preserve these precious endowments.

Indeed, as a rule, the more healthy and robust a man is, the more he is inclined to neglect his health. It is some consolation to the naturally weak and feeble to know that they are not alone in their condition, but that many of the strongest and bravest of men are afflicted with the same complaint.

It is not too much to say that more than half of the population of this country are afflicted with some form of debility, and that the number is increasing every day. The cause of this is, in many cases, the neglect of the simple and natural means of preserving health.
